INTRODUCTION

More than 5.7 billion over 16 billion units globally produced, are made in Europe. The data annually collected among FEA members, focus on giving a detailed summary on European aerosol products production by country, segment and type.

A worldwide production overview lastly concluded this report.

About FEA

The European voice for the aerosol industry

The FEA (Fédération Européenne des Aérosols or European Aerosol Federation) was founded in 1959. It functions as the European voice for the industry and the coordination office for its national associations. The Federation represents today 18 European countries which include more than 350 SMEs and multinationals active in the aerosol industry.

Its area of activity is tightly defined and offers unique expertise on aerosol dispensers at European level on challenging aspects such as flammability, pressure resistance, packaging and components fittings, filling, testing, warehousing, transport, recycling, propellants and solvents.

What we do?

REGULATORY

Participates in different industry platforms, being particularly involved in the following areas : Product safety, Chemicals, Classification, Labelling and Packaging, Industrial safety, Transport of Dangerous Goods, Propellants and solvents issues, Legal metrology, Recycling (...)

Prepares and coordinates the actions of the National Associations regarding current and forthcoming legislation and regulation

EXPERTISE AND SUPPORT

Provides help to its members regarding technical, legal and regulatory affairs and keeps them up-to-date

Develops and updates industry standards and guidance documents to promote best practices within the industry

Works closely with sectoral associations and contribute our expertise to the discussions

Supports aerosol associations worldwide in order to foster safety and global harmonisation

EUROPEAN PRODUCTION

European production evolution (2007-2017, in '000 000 units)

According to reported fillings for European aerosol products, overall unit production reached a new record high with more than 5.7 billion in 2017, reflecting a continuous growth from 2015 & 2016's production numbers.

AEROSOL MARKET SHARE

United Kingdom, Germany and France provide more than 60% of the annual aerosol production in Europe in all segments.

The split is roughly estimated to 55% aluminium cans and 44% steel cans. Glass and plastic cans represent less than 1% of the total production.

Aerosol market share (% , 2017)

European production 2017 in '000 000 units

AEROSOL PRODUCTION BY SEGMENT

Aerosol containers are primarily made of steel and aluminium whereas glass and plastic containers remain marginal. Cosmetics and household products represent more than three quarter of the European production.
